

**Motor Cycle installed Aupac Carbon brush,  
The Fastest in the world**

June in 2013...

Aupac Carbon brush gave a chance to be a No.1 in the world collaborated with "MIRAI" and "Miku Hatsune" at "The Isle of Man Tourist Trophy Race" which has long history over 100years.

The result was No.1 in the Electrical motor cycle installed Carbon brush.

**2013 TT Zero Race**

Rank	Rider	Team	Speed	Time
1	Michael Rutter	MotoCzysz	109.675 mph	20' 38.461
2	John McGuinness	Honda Mugen Shinden	109.527 mph	20' 40.133
3	Rob Barber	RW-2 / Ohio State University	90.403 mph	25' 02.467
4	George Spence	Kingston University	88.096 mph	25' 41.822
5	Chris McGahan	Yamaha R6E	83.857 mph	26' 59.755
6	<b>Ian Lougher</b>	<b>Kometti-Mirai Racing</b>	<b>81.515 mph</b>	<b>27' 46.300</b>
7	David Madsen-Mygdal	Imperial	71.983 mph	31' 26.933
8	Paul Owen	Brunel BX/Brunel University	71.738 mph	31' 33.387

It which bears the heart of Motor which roles is driving souce of the Electrical motor cycle, called " Carbon Brush".  
 Unless the Carbon brush exert utmost performance, the capacity will be decreased and cause of this, the motor cycle can't appear the best condition.  
 It's needed the carbon brush designed suitable with Motor specification correctly such as "Strength, Life, Specification".  
 This result came from the utmost performance of TEAM, RIDER, FANS, ANY PARTS CONFIGURES MOTOR CYCLE, CARBON BRUSH.

There is no standard item in a Carbon brush.  
 We take your inquiry as order made and pore Motor spec, Usage environment and several things.  
 Then, we propose a carbon brush wich can show the best performance .  
 Aupac Carbon burhs will contribute for making your dream as good supporter.
